

PT PETROSEA TBK

COMPANY PROFILE 2025

Engineering the Future of Mining

As a multidisciplinary company with a track record of more than five decades, Petrosea Group provides integrated solutions covering the entire value chain from upstream to downstream through its Mining Services, EPC, Offshore Oil & Gas EPCI and Logistics & Support Services business lines to support the mining industry, both mineral & coal and oil & gas, construction, as well as petrochemical in the Asia Pacific region.

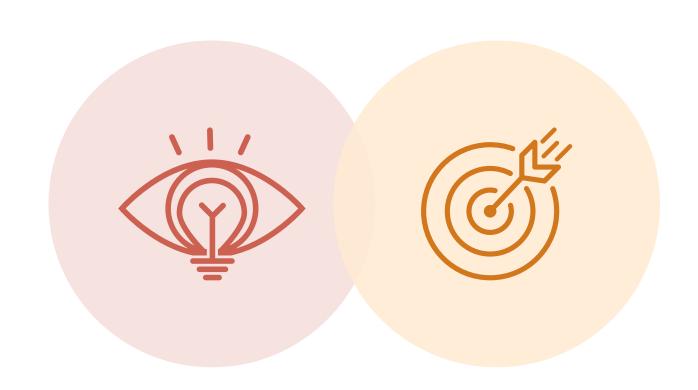

Through the acquisitions of Hafar, HBS and Scan-Bilt, Petrosea has expanded its business portfolio into non-coal sectors, particularly gold mining services and offshore, as well as onshore oil & gas Engineering, Procurement, Construction & Installation (EPCI) services.

VISION

To be a leading service provider in mining, oil & gas and infrastructure in South East Asia

MISSION

To deliver innovative solutions for mining, oil & gas and infrastructure to the satisfaction of all clients and stakeholders

CORPORATE VALUES

AGILE

We adapt to change

CONNECTED

We stay updated to the industry, technology and people

TRUSTED

We deliver value to our stakeholders whilst demonstrating our commitment towards the highest ethics and business conduct

MAJOR CLIENTS:

MINING SERVICES

Petrosea Group delivers integrated mining services backed by extensive experience and in-depth industry expertise to support the development of the coal, nickel and gold mining sectors.

With over five decades of experience, Petrosea offers integrated mining solutions tailored to the requirements of each project, including Industry 4.0 technologies through its Minerva Digital Platform designed to solve operational issues in order to provide the best possible services for all clients.

Petrosea has the capability to monitor and control operations at multiple mining sites by utilizing real-time data through its Remote Operations Center (ROC) located at the Company's headquarters.

Through HBS and its subsidiaries, Petrosea provides mining and construction services as well as heavy equipment solutions in Papua New Guinea since the early 2000s.

HBS has built strong partnerships and collaborations with key players in the mining industry, particularly in the gold sector. Currently, HBS supports several major gold mining projects in Papua New Guinea for clients including Newmont, St Barbara and Harmony Gold.

ENGINEERING, PROCUREMENT & CONSTRUCTION

As a leading Indonesian multi-disciplinary mining, energy and infrastructure company, Petrosea has established a strong reputation in providing EPC services that consistently prioritize the aspects of safety and quality.

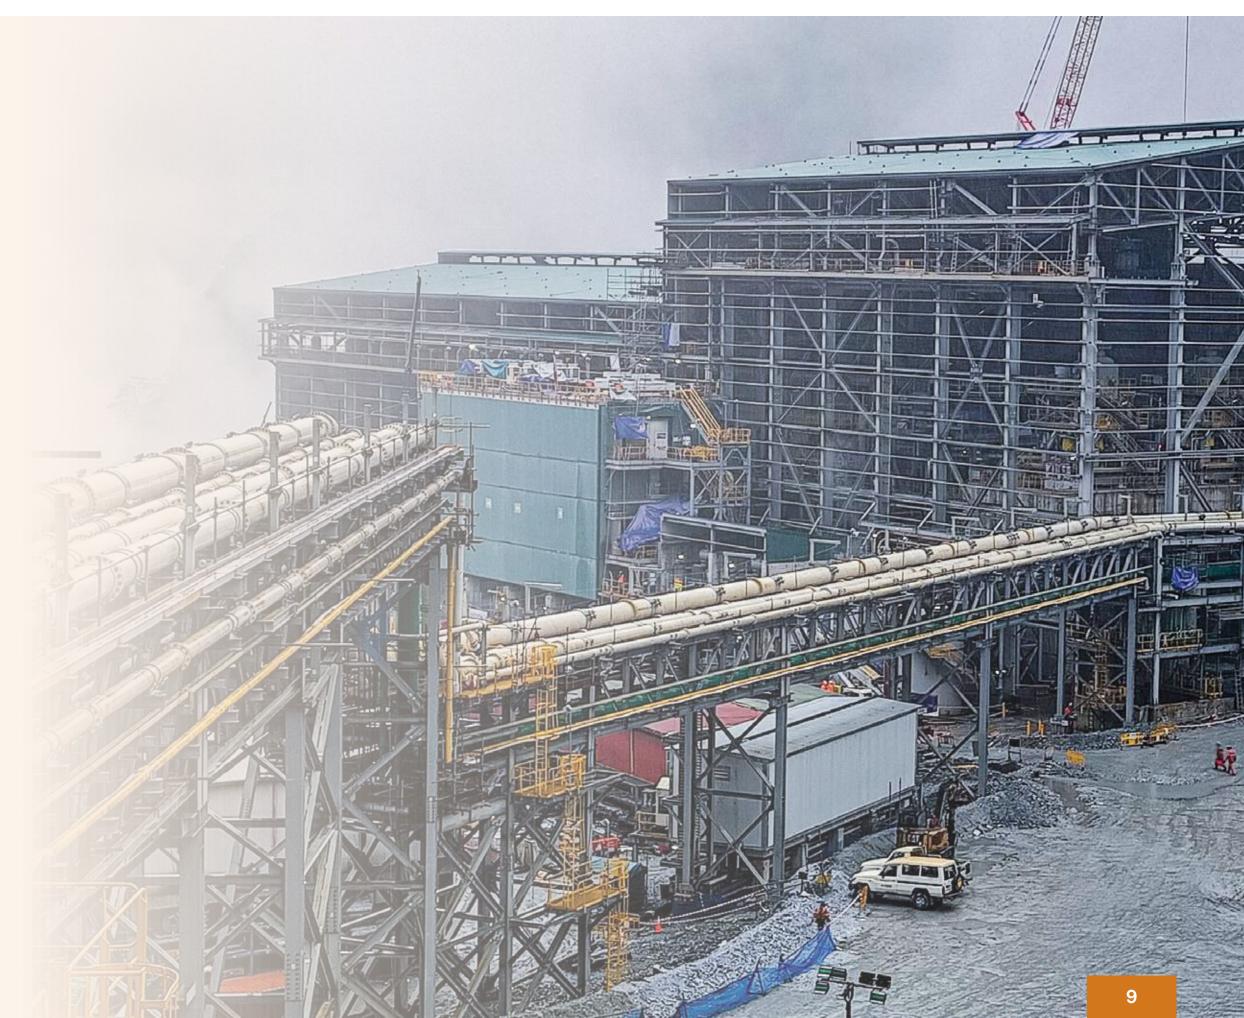

With decades of experience and integrated capabilities, Petrosea provides end-to-end EPC solutions across the mining, oil & gas, petrochemical, energy transition, and marine infrastructure sectors. Combining technical expertise, advanced project management, and a strong commitment to operational excellence, Petrosea offers comprehensive services from FEED and detailed engineering to procurement, construction, installation, commissioning, and handover—ensuring seamless project execution with strict adherence to schedule, budget, and quality.

Over the years, Petrosea has supported a wide range of blue-chip clients, such as Freeport Indonesia, BP Berau Ltd, Vale Indonesia, Fluor Daniel Indonesia, Masmindo Dwi Area and Daya Bumindo Karunia.

Through Scan-Bilt, Petrosea has provided multidisciplinary EPC onshore capabilities in the chemical processing industry since 1990.

Scan-Bilt has extensive experience executing projects to support key players such as Shell Eastern Petroleum Pte Ltd. / Chiyoda Singapore (Pte) Ltd., Stolthaven Singapore / Chiyoda Singapore (Pte) Ltd., as well as Aster Chemicals and Energy Pte. Ltd., particularly in facility maintenance within Singapore's integrated petrochemical and oil refining hub.

OFFSHORE OIL & GAS EPCI

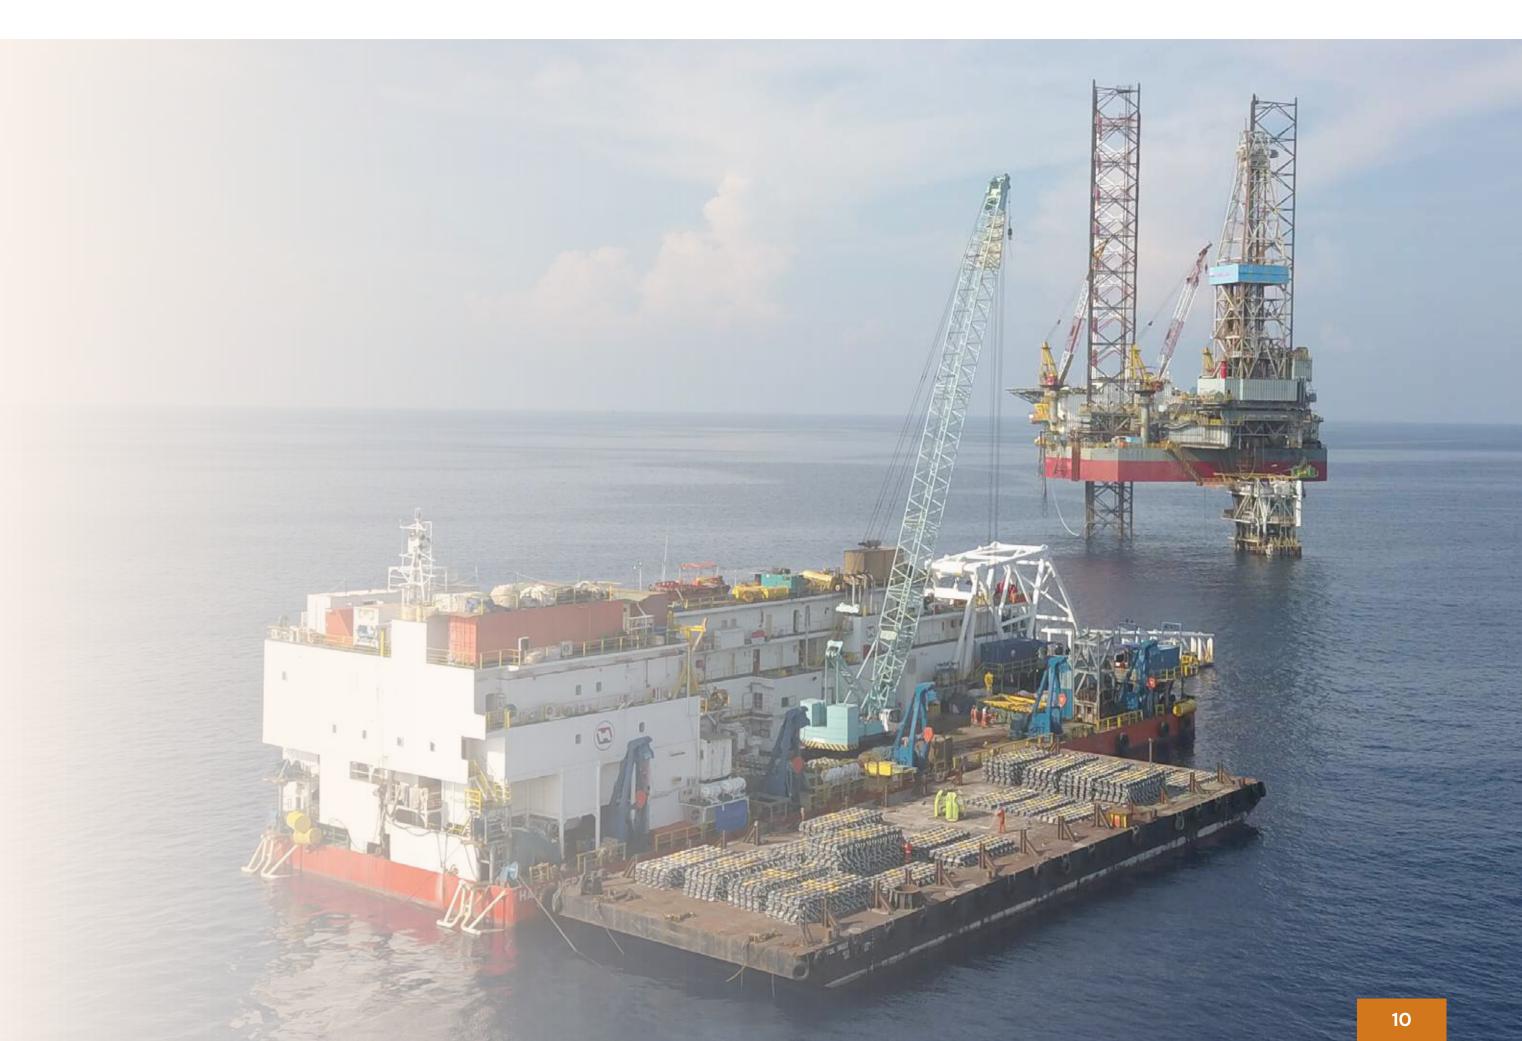

Petrosea has strengthened its business diversification beyond the coal sector by expanding into offshore oil & gas through Hafar Group—comprising PT Hafar Daya Konstruksi and PT Hafar Daya Samudera—offering integrated EPCI (Engineering, Procurement, Construction & Installation) capabilities.

This expansion is supported by technology adoption and the optimization of multidisciplinary expertise across the entire value chain, from upstream to downstream, to capture the growth potential of the oil & gas industry and support the national downstream development of mineral and energy resources.

Established in 2007, Hafar Group has undertaken various projects to support Indonesia's oil & gas industry, including for PT Pertamina Hulu Energi (PHE), PT Pertamina Hulu Energi Offshore North West Java (PHE ONWJ), PT Saka Energi Indonesia (PGN Saka), Petroliam Nasional Berhad (PETRONAS) and PT Freeport Indonesia.

This track record of achievement reflects the strong reputation of Hafar in delivering high-quality offshore solutions to meet the requirements of all its clients.

LOGISTIC & SUPPORT SERVICES

Petrosea provides international standard and cost-effective services for the Indonesian oil & gas industry through its Petrosea Offshore Supply Base (POSB) located in Sorong, Southwest Papua.

POSB Sorong delivers high-quality supply base management services with a strong commitment to Safety, Health & Environment (SHE), ensuring safe and efficient operations that support offshore oil & gas production, development and exploration across Indonesia.

Our Supply Base Management services include quayside operations, transport management and port management amongst other complementary services that include, but are not limited to, manifesting, critical spares handling and materials management, ships agency, waste management, bulk management and materials tracking as well as technology services.

Over the years, POSB Sorong has provided services to various blue-chip clients, such as ExxonMobil, Total Indonesie, Eni Bukat Ltd, Chevron Indonesia, Halliburton and BP Berau Ltd.

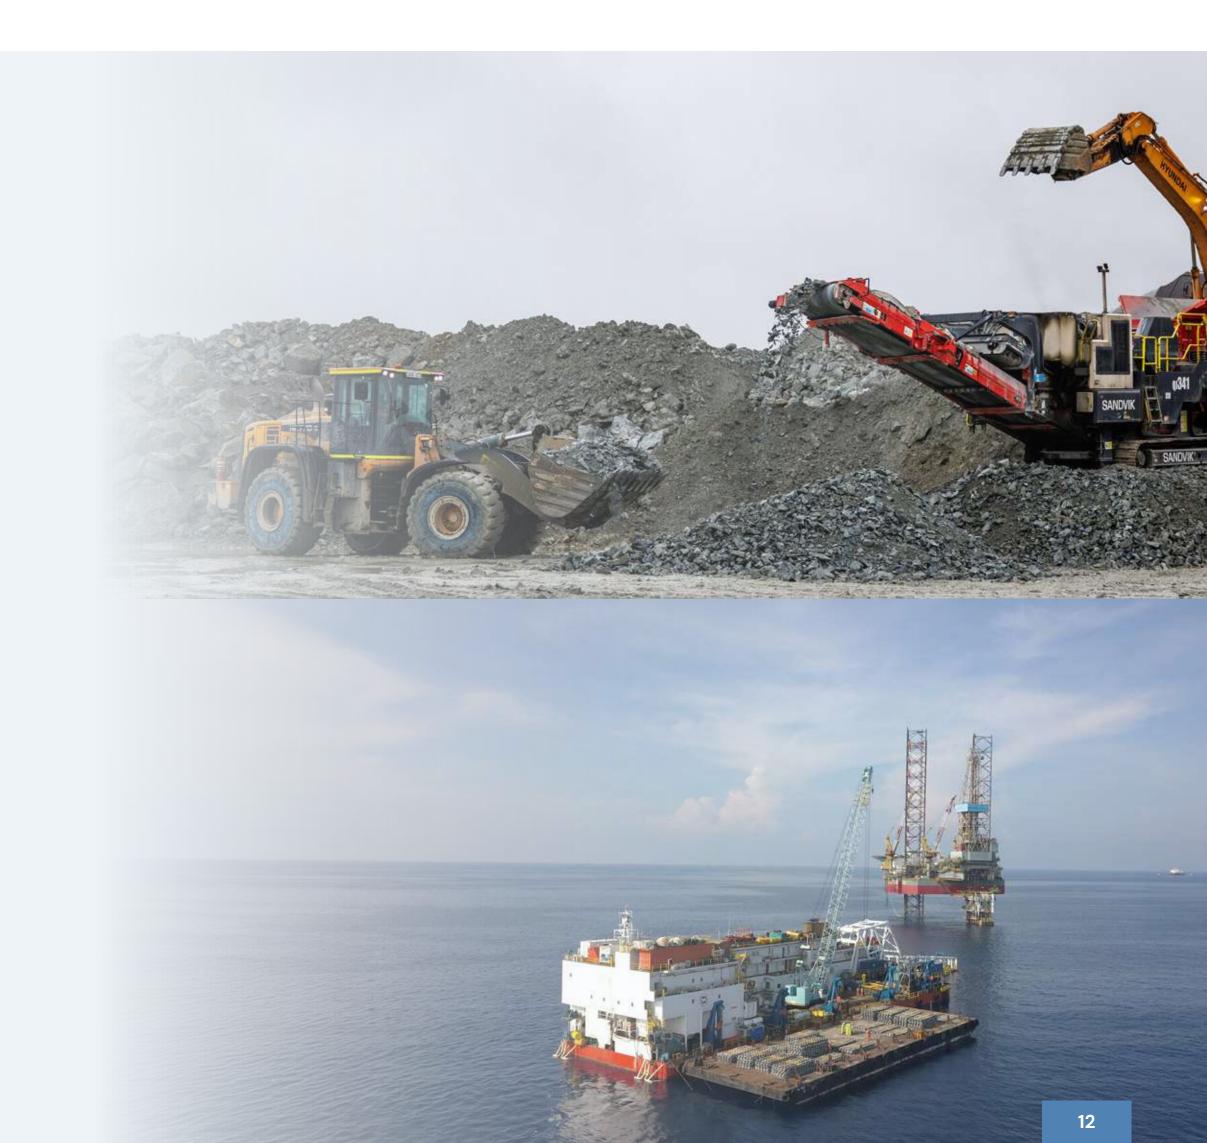

STRATEGY FOR GROWTH

With a strong foundation built on the consistent implementation of good corporate governance, Petrosea has successfully executed its organic and inorganic business development through diversification, capability enhancement and expansion strategies throughout 2025, further strengthening its position as a leading and resilient company in the industry.

The strategic acquisitions of HBS, Hafar and Scan-Bilt mark Petrosea's diversification into onshore and offshore EPCI, as well as gold mining services across the Asia Pacific region. These acquisitions enhance Petrosea's operational excellence and complete its value chain from upstream to downstream, reinforcing the Company's role in supporting the mining, energy, infrastructure and petrochemical sectors.

In addition, business expansion driven by synergy and operational integration among subsidiaries within the Petrindo Group has established a solid foundation for sustainable long-term growth. This organic development further strengthens Petrosea's position as a trusted business partner for both existing and new clients.

BUSINESS DIVERSIFICATION & NEW CAPABILITIES

HAFAR GROUP - OFFSHORE OIL & GAS EPCI

The Hafar Group is an offshore oil and gas business group that provides Engineering, Procurement, Construction & Installation (EPCI) services, focusing on pipeline and subsea equipment installation while owning a fleet of vessels. Currently, Hafar provides EPCI and marine services to several major oil & gas players in Southeast Asia, including Pertamina, Petronas and Freeport Indonesia.

PT HAFAR DAYA KONSTRUKSI

Provides offshore pipelaying, subsea segment pipe replacement, shore-pull, PLEM installation, calm Buoy (SPM) installation, platform riser-repair/replacement and pre-trenching & post-trenching.

PT HAFAR CAPITOL NUSANTARA

Provides pipelaying barge, anchor handling tug, and pontoon barge services.

PT HAFAR DAYA SAMUDERA

Provides licensed shipping services and operates crew boats, coastal tugs, material barges, general barges, and shallow-water dredgers.

BUSINESS DIVERSIFICATION & NEW CAPABILITIES

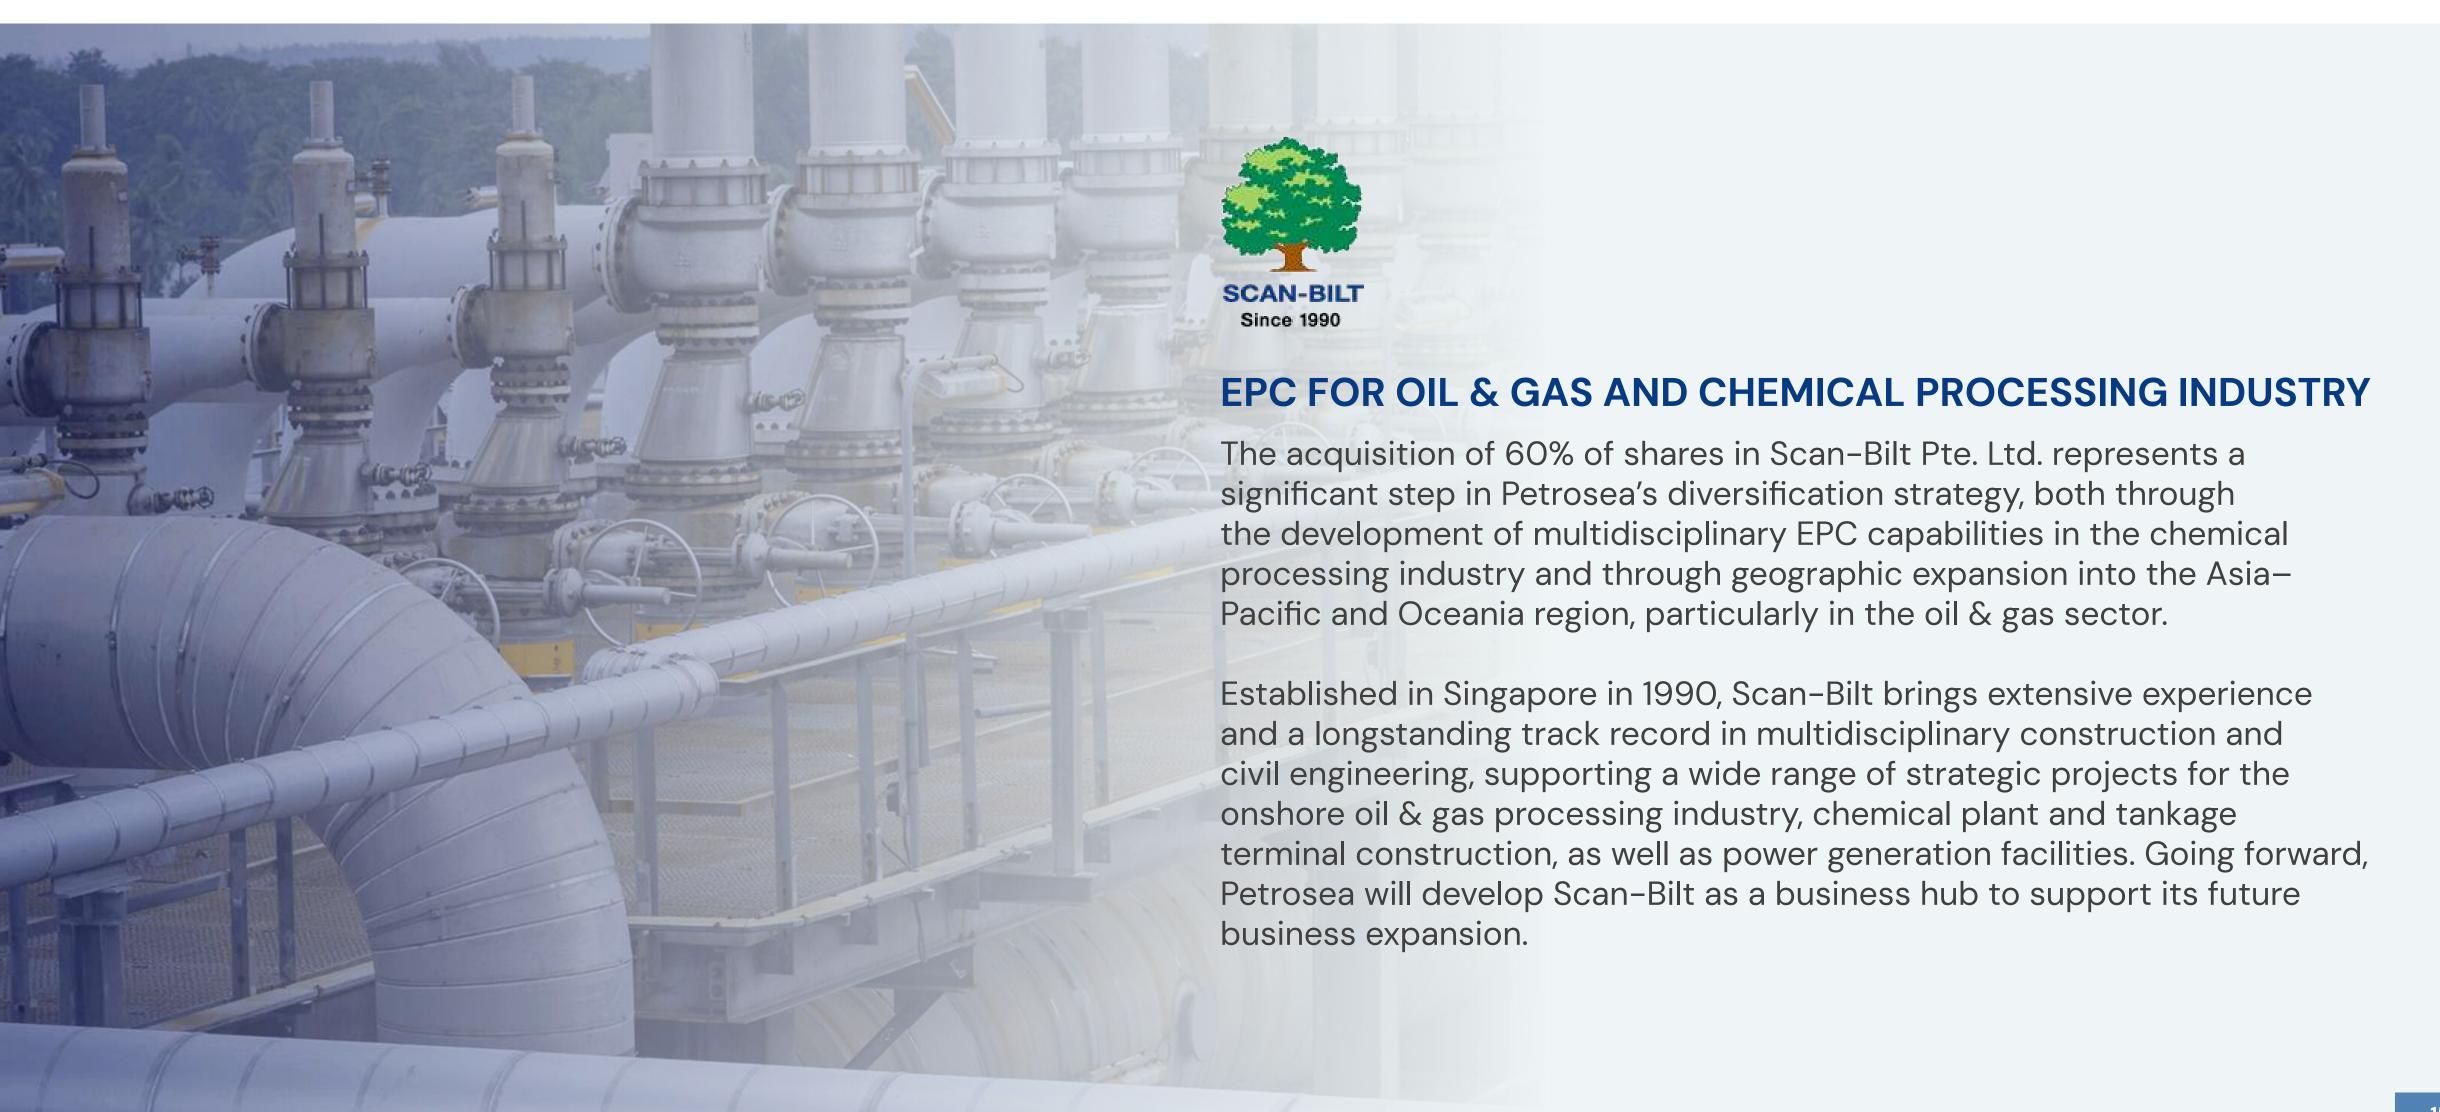

GOLD & MINERAL MINING SERVICES

The HBS Group—comprising HBS PNG Pty. Limited, HBS Expac Ltd., Hidden Valley Contractors Ltd., HBS Plant Hire Ltd. and HBS Solomon Islands Limited—has been operating in Papua New Guinea since 2006. The Group provides mobile plant and equipment hire, mining services, the trading of new and used heavy machinery, equipment, vehicles and spare parts, as well as the rental of construction and civil engineering machinery and mobile plant for the mining, construction and heavy equipment sectors.

Through HBS, Petrosea has diversified its business into new geographical markets, including gold mining, to strengthen its strategic advantage and support its long-term investment horizon.

BUSINESS DIVERSIFICATION & NEW CAPABILITIES

SYNERGY BETWEEN PETROSEA & SUBSIDIARIES

SYNERGY WITH HBS GROUP

REGIONAL EXPANSION

Expanding Petrosea Group's footprint into Papua New Guinea by leveraging existing client base and network of HBS, such as Newmont, St. Barbara and Harmony Gold.

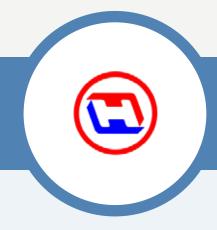

HUMAN CAPITAL SYNERGY

Enhancing the scalability and capabilities of Petrosea Group's workforce in order to deliver added value to customers.

PROCUREMENT OPTIMIZATION

Optimizing heavy equipment procurement within Petrosea Group's ecosystem for best pricing and enhanced competitiveness.

SYNERGY WITH HAFAR GROUP

OFFSHORE BUSINESS EXPANSION

Unlocking new business opportunities in offshore EPCI and marine operations (particularly barge vessels for pipeline installation).

BLUE-CHIP CLIENT BASE

Access to a network of leading oil & gas industry clients, such as Pertamina, Petronas and Freeport Indonesia.

ENERGY DIVERSIFICATION

Expanding the business into the LNG and oil & gas industries. Currently, HDS and HCN already hold Sea Transportation Company Business Licenses (SIUPAL).

PROCUREMENT OPTIMIZATION

Integrating the supply chain and vessel / equipment procurement in order to improve cost efficiency and gain access to best vendor pricing.

HUMAN CAPITAL SYNERGY

Enhancing the capacity and capabilities of Petrosea Group's workforce in order to strengthen operations and services.

5 PILLARS OF LONG TERM STRATEGY

PETROSEA LONG TERM STRATEGY

OPERATIONAL EFFICIENCY & ADDED VALUE FOR STAKEHOLDERS

Enhance the Company's efficiency in delivering added value to all clients and stakeholders as a tangible contribution to Indonesia's mining sector

ENHANCING VALUE CREATION FOR CLIENTS

Strengthen the
Company's current
business lines by
enhancing value
creation for both
existing and new clients

STRATEGIC PORTFOLIO DIVERSIFICATION

Diversify the Company's project portfolio into other mineral mining sectors and capture new business opportunities in oil, natural gas and infrastructure sectors in line with current industry developments

COMMITMENT TO ENHANCING COMPETENCIES

Continued
comprehensive
transformation
process to enhance
competencies and
human capital
management through
education, training and
innovation

CREATING EXCELLENCE IN HEALTH & SAFETY

Continuously strive to strengthen its safety, health & environment culture by implementing Target Zero (zero harm to people, community and the environment) and operational excellence, while executing various ESG initiatives and maintaining a strong commitment to GCG
