

## **Petrosea Strengthens Commitment to Community Health Amid Business Growth**

**Jakarta, 29 May 2026** – PT Petrosea Tbk (IDX: PTRO) continues to strengthen its commitment in implementing sustainable Corporate Social Responsibility (CSR) programs through various initiatives under its health pillar. As part of this commitment, since 2023 Petrosea has consistently carried out a stunting prevention program across Company project sites through a range of initiatives focused on improving community health quality, particularly for mothers and children living around its operational areas.

The program is part of NUTRISEA (Nutrition, Treatment and Resilience Initiative from Petrosea), the Company's integrated CSR initiative implemented across various operational areas to support the improvement of community health. This initiative encompasses preventive health programs, nutrition improvement, strengthening family food resilience, as well as health education carried out collaboratively with healthcare facilities, community health posts, schools, village administrations and local health cadres.

Petrosea actively supports the government's efforts to accelerate the reduction of the national stunting rate through the implementation of its stunting prevention program. Despite the declining trend in Indonesia's stunting prevalence over the past two years, stunting reduction remains a national health priority that requires sustained commitment and cross-sector collaboration. Through the National Medium-Term Development Plan (RPJMN) 2025–2029, the government has targeted reducing the national stunting prevalence to 14.2% as part of its long-term goal of achieving a 5% prevalence rate by 2045.

Petrosea's commitment to implementing sustainable CSR programs is supported by the Company's strong financial and operational performance. Throughout the first quarter of 2026, Petrosea recorded a revenue growth of 84.24% to US\$ 284.13 million compared to US\$ 154.21 million during the same period of 2025. Meanwhile, profit attributable to owners of the company increased by 50.54% to US\$ 1.38 million. The Company's largest revenue contribution was generated by the Mining Services business line which recorded US\$ 140.57 million, followed by the EPC business line at US\$ 106.43 million and the Offshore Oil & Gas EPCI business line at US\$ 13.59 million.

Petrosea continues to strengthen operational excellence through various initiatives aimed at enhancing operational productivity, optimizing efficiency, advancing technology and digitalization, as well as consistently implementing Occupational Health & Safety (OHS) standards across all operational areas in order to support sustainable business growth.
